MINAHIL IRFAN

MERN Stack Developer | HCL DX (WCM) & Optimizely CMS

Lahore, Pakistan | minahili764@gmail.com | +92 305 4305911 | github.com/Minahili

PROFESSIONAL SUMMARY

MERN Stack Developer with hands-on experience building scalable, responsive web and mobile applications using React.js, React Native, and Node.js, alongside enterprise CMS development on HCL DX (WebSphere Portal/WCM) and Optimizely. Skilled in translating Figma designs into pixel-accurate, cross-breakpoint UI, building reusable components and themes, and integrating REST APIs across the full stack. Experienced delivering production-ready features for internal and client platforms during internships, with a strong focus on clean, maintainable code and performance optimization.

TECHNICAL SKILLS

Frontend: React.js, React Native, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Responsive & Mobile-First Design

Backend: Node.js, Express.js, REST API Design & Integration

Databases: MongoDB, MySQL

CMS & Enterprise Platforms: HCL DX (WCM, Theme Customization, Portal Personalization & Administration, Reusable Components, Authoring/Presentation Templates), Optimizely CMS

Tools & Practices: Git, GitHub, VS Code, Postman, CRUD Operations, WebSockets, JSON, Agile Collaboration, Code Review & Debugging

PROFESSIONAL EXPERIENCE

MERN Stack Intern | *AALA IT Solutions* *Sep 2025 – Dec 2025*

- Developed and optimized responsive React.js components for production web applications, improving load performance and UI consistency across devices.
- Integrated REST APIs to streamline frontend–backend communication and data flow.
- Collaborated with the development team using Git version control, following coding standards and best practices throughout the development lifecycle.

Associate Software Engineer | *Digifloat*

- Delivered full-stack features and RESTful APIs across MERN Stack and HCL DX projects for internal and client applications.
- Customized HCL DX themes and built reusable portal components used across multiple site sections.
- Managed web content through WCM and implemented portal personalization features to tailor user experience.
- Supported portal administration and integrated REST services within enterprise portal solutions.
- Participated in testing, debugging, and peer code reviews to ensure high-quality, maintainable deliverables.

PROJECTS

Al Ghurair Foods (AGI) Website — *HCL DX (WCM)*

- Built production-ready frontend components for the Al Ghurair Group (AGI) Foods website in HCL DX, matching Figma designs pixel-accurately across four responsive breakpoints.
- Developed a custom "Our Brands" carousel, "Why Zed" accordion, and reusable header/footer components using WCM Authoring/Presentation Templates and the Navigator component.
- Deployed a custom theme to the DX sandbox using WebDAV and DXClient CLI for XML Access operations.

Blood Donation Mobile App — *React Native, Node.js, MySQL*

- Built a full-stack mobile application supporting donor, patient, and admin roles.
- Implemented GPS-based donor matching and real-time notifications to connect donors with requests.
- Designed the database schema and inventory tracking system for blood bank management.

EDUCATION

BS Computer Science | Lahore College for Women University | 2021 – 2025

Intermediate, Pre-Engineering (Physics) | Queen Mary College

Matriculation, Computer Science | Akbari Public School | 2018 – 2019

CERTIFICATIONS

- HCLSoftware Certified Professional — Digital Experience 9.5+
